CITY RECORDER REQUIRES HELP

GREAT INCREASE IN NUMBER
OF CASES IN LAST SIX
MONTHS REPORTED

GIVEN CLERK'S AID

COMMERCIAL STREET MATTER
WILL AGAIN BE UP TO
BOARD OF TRUSTEES

Flooded with cases in which alleged violations of the traffic laws are in the majority, Judge F. H. Lowe, city recorder, has applied through City Manager T. W. Watson, for the aid of a clerk.

The matter was presented to the board of trustees last night with the result that it was brought out that during the last six and one-half months there have been 1338 court cases on record. The receipts therefrom have been \$5,253. The city manager recommended that an appropriation of \$50 for the balance of the fiscal year, including the month of December, for the purpose of supplying this service. On motion of Trustee Stephenson, recommend was approved and the city attorney instructed to draft ordinance providing for the same; the salary being limited to \$50 per month.

Later in the meeting Trustee Stephenson presented an ordinance which was read and laid over until the next regular meeting providing for the office of clerk of the recorder's court for the city.

Commercial Street Proceedings

During the meeting of the trustees last night, the city attorney recommended that on account of the incorrect reference contained in ordinance No. 412 ordering the opening of Commercial street that same be repealed and Trustee Stephenson presented an ordinance repealing ordinance No. 412, which was read and laid over until the next regular meeting.

This has the effect, it was explained, of leaving the Commercial street improvement where it was in the beginning. Trustee Stephenson stated he would probably vote against the opening of the street when the matter comes up again and the other members of the board, who voted in favor of the proceedings before, made no comment as to how they would vote.

Other Matters Before Board

Other business transacted by the board, other than that related elsewhere in this issue of The Evening News, is given herewith:

The board assembled at 8:15 p.m., all members present. Minutes of the regular meeting of December 9 were read and approved.

The hearing in regard to improving Dayton court was called up at (Continued on Page Four)

Recruiting Station

A recruiting office will be opened up tomorrow in a tent on Brand boulevard next to The Evening News office, to sign up members for the Glendale company of the California national guard regiment. As a great deal of enthusiasm has been manifested, the company ought to fill up rapidly. All red blooded American men between the ages of eighteen and forty-five ought to respond to this appeal.

The advantages offered are many, among them being pay for all drills and the privilege of buying at a well stocked canteen and commissary which sells at cost plus handling expenses.

You will have the right to attend military dances, banquets and entertainments at the state armory. Also have the use of their club rooms, gym and athletic fields, which are well equipped, as well as entertainments which will be given by the Glendale company. You will be furnished equipment the same as that used in the United States army.

The guard will teach you self reliance. You will learn to take and give commands and increase confidence in yourself. You will receive "setting-up exercises" under a competent instructor; this will build your physique so that you need not be ashamed to wear a bathing suit.

The new federalized guard will be made into an exclusive military athletic club with card membership. Regular fellows, that you have wanted to meet, belong; no dues.

You ex-service men, come join with your buddies; you will find a lot of fellows from your old outfit in this new regiment.

Weather Forecast

LOS ANGELES, Dec. 17.—The official weather forecast: Unsettled tonight and Saturday.

Burglars Carry Away Wearing Apparel From Dr. Harrower Residence

Last night, between 8 and 9 o'clock, the residence of Dr. Henry R. Harrower, on the corner of Cedar street and Lexington avenue, was broken into by two burglars. The screen in the maid's room downstairs was cut, the window opened and entrance made in this manner. The blinds were all carefully drawn and then the thieves helped themselves to what their fancy dictated.

They found very little money—a few odd dollars that the daughter had been saving up—and practically no jewelry save a few heirlooms of little intrinsic value. However, every article of outside apparel owned by the doctor, with one single exception, was stolen. They took his new suit that he had only worn once, his dress suit, his two old suits, his Palm Beach suit, his house coat, his sweater, his overcoat, his bathrobe, and the doctor says that if he had been out bathing instead of in a meeting he wouldn't have been able to come down to the office this morning.

When the maid came in about 9 o'clock the house was lighted and the contents of practically every drawer in the house were strewn in indescribable confusion. An officer was called and he made a partial inventory of the loss, studied the method of entrance into the house, and found footprints indicating the character of the marauders. Doctor Harrower takes his loss philosophically and says that he "is going to save up his money to buy some new clothes."

Many Subscribers of Evening News Save by Use of Yearly Rate

Many more subscribers to The Glendale Evening News have proved their good business judgment the past week by paying yearly subscriptions of \$5 to The News. They are people who are interested in the community, hence wouldn't do without the local daily, and they realize it is economical to pay by the year.

The Evening News is proud of its unsolicited paid-in-advance list. Voluntary subscriptions mean the paper is appreciated. We are always glad to show our list to our advertisers. It speaks for itself.

See what you save by paying by the year.

Subscription paid yearly	\$5.00
Subscription paid quarterly	\$5.60
(\$1.40)	\$5.60
Subscription paid monthly	\$7.20
(60c)	\$7.20

Municipal Tree

Santa Claus will arrive in Glendale this evening early, in time to be the guest of honor at the celebration to be held about the municipal Christmas tree on the municipal playgrounds at Magnolia avenue and San Fernando boulevard.

This is Glendale's first municipal Christmas tree, and all school children and many of their elders as well are on tiptoe with expectation.

The program includes Christmas carols by children of Cerritos avenue school, a reading by Joe Griffin, Christmas music by a quartet, a Christmas pantomime by the Wallace Dramatic school of Los Angeles, a Scotch dance by Lavinia Wood, with bagpipe accompaniment, a one-reel motion picture, and a solo by Dr. Joseph Marple, who will also lead in the community singing.

Last but not least, Santa Claus will distribute the candy and other goodies which will be eaten by the light of a large bonfire.

Awarded Fine Cake

Samuel H. Tupper, fourteen-year-old high school lad who resides at 1003 East California avenue, found himself unusually popular among his young friends yesterday.

"There's a reason," to quote the slogan of a well known advertisement. The news had leaked out that Samuel was the winner of the very large, splendidly decorated cake which Miss O'Connell made and decorated with lots of flowers made of icing, for the Catholic fair.

They do say that Miss O'Connell's cakes are just as good as they look; and of course, Samuel's friends are really doing him a service in helping him eat it—for even a high school athlete's stomach probably has its limitations, and if Samuel ate that whole great big cake now, he might be too sick to enjoy his Christmas dinner.

HUGE PENNON FOR HAIG
LONDON, England.—On behalf of the Border communities the Duke of Buccleuch presented Earl Haig with a Border pennon, in recognition of his war service. The pennon is eleven feet long and borne on a mahogany lance.

BOND ELECTION DETAILS FIXED

FOUR PROPOSITIONS TO BE
PLACED BEFORE CITIZENS
DURING JANUARY

FOR CIVIC CENTER

QUESTION COMES UP AGAIN SO
VALIDITY OF BONDS CAN
NOT BE QUESTIONED

Making a total of \$226,000, four propositions will be submitted to the voters of Glendale at a special election to be called during the latter part of January, at which authorization to issue bonds will be asked.

The four propositions to be placed before the voters for approval are:

1. Transmission mains for extension to water distributing system, \$100,000.00.
2. Buildings and grounds for storing materials and supplies and for housing city vehicles and tools, \$26,000.00.
3. Swimming pool and buildings in connection therewith, \$17,000.00.
4. Gymnasium, including land, buildings and equipment, \$83,000.00.

Each Stands on Own Merits

The estimates on the four propositions were presented to the board of city trustees at its meeting last night.

It was explained that each proposition will be voted upon separately and each carried or defeated by the votes cast for or against that one proposition.

The trustees, on motion of Trustees Stephenson, seconded by Trustee Bartlett, instructed the city attorney to prepare the necessary legal proceedings for the election.

Propositions Nos. 3 and 4, for the civic center, carried at the November election, but owing to a legal technicality in the call, it was deemed best to resubmit the propositions so that there might be no question about the validity of the bonds.

CENSOR BOARD

THREE CITIZENS NAMED TO
PASS ON ATTRACTIONS
SHOWN UPON SCREEN

A board of censors to pass upon moving picture attractions in Glendale has been appointed, the selection being made by Hartley Shaw, president of the board of city trustees.

The censorship board is composed of Mrs. Charles A. Barker, T. W. Preston and W. B. Kirk.

The formation of a board of censors and the appointment of three members is provided for by a city ordinance. The appointments of Mr. Shaw were confirmed by the board of trustees in session last night.

Council Files Report

That the Social Welfare Council of Glendale is filling a real need is shown by the report of their executive board which met in regular session last Monday evening.

This report shows fifteen homes

visited during November, six interviews held at the office in the city hall, employment found for two applicants. Clothing to the value of \$55 was given from the council supply; comforts and blankets to the value of \$20 were supplied to needy homes; Thanksgiving day boxes whose total value was \$210 were distributed. Many letters of thanks for the Thanksgiving cheer have shown the appreciation of those whom the council has given help.

Three yearly memberships of \$5 each have been received, also \$7 in cash donations and \$60 from the high school. The council wishes to thank both the high school and intermediate school pupils for their substantial help.

Plans are being made by the council for Christmas boxes. Anyone in need of help or anyone knowing of people in need is requested to notify Mrs. L. W. Sinclair at the city hall on Tuesdays, Thursdays and Saturdays, from 9 to 12 o'clock. Visitors are always welcome.

Mrs. E. D. Yard is president of the council, Mrs. C. E. Kimlin, vice president, Mrs. L. C. Sinclair, treasurer, Mrs. E. L. Young, secretary. These officers and Mrs. C. S. Archer compose the executive board.

HUGE PENNON FOR HAIG
LONDON, England.—On behalf of the Border communities the Duke of Buccleuch presented Earl Haig with a Border pennon, in recognition of his war service. The pennon is eleven feet long and borne on a mahogany lance.

WARN WOMEN AND CHILDREN OFF STREETS

(Special Service to Glendale Evening News)

LOS ANGELES, Dec. 17.—The curfew law prohibiting children under 16 years of age from appearing on the streets after 9 o'clock will be rigidly enforced beginning tonight, Chief of Police Pendegast announced as a result of numerous recent attacks on girls and women. Pendegast has warned women to keep off the streets at night. A woman and a 16-year-old girl were attacked last night by an unidentified man. Many women have asked for permits to carry fire arms. The chief, however, asserted he does not believe it advisable that women should become "walking arsenals." He said that women compelled to go out alone at night will be furnished with police protection if they desire it.

CONFERENCE ON TRACK CHANGES

COMMITTEE IS CHOSEN TO NINTH DISTRICT GATHERING
CONFER WITH PACIFIC
ELECTRIC OFFICIALS

SEEKS IMPROVEMENT CONGRESS NOMINEE

MATTISON B. JONES NAMES
LOCAL CITIZENS TO AID
IN SECURING CHANGES

NAME OF W. E. EVANS TO BE
GIVEN CONSIDERATION BY
DELEGATES IN SESSION

For the purpose of selecting a candidate for congress in the ninth district to fill the vacancy caused by the accidental death of Charles Van de Water, congressman-elect, more than 300 Republican delegates, representing every section of the district, gathered in the Y. M. C. A. auditorium at Pasadena this morning, in answer to an official call issued by Raymond Benjamin, chairman of the Republican state organization.

The gathering was called to order shortly after 10 o'clock by State Chairman Benjamin, who paid a fine tribute to the memory of Mr. Van de Water.

Then, as had been requested by the congresswoman-elect's widow, a prayer was offered over the gathering by Rev. Mathers of South Pasadena. A large picture of Mr. Van de Water was on the stage.

Form Temporary Organization
Judge Allard of Pomona was chosen as temporary chairman and two secretaries were named, H. S. Farrell of Alhambra and Preston C. McDonald of Highland Park.

Committees on credentials, permanent organization and resolutions were then named, John Robert White of Glendale being put on the first, Charles L. Chandler of Glendale being placed on the second and N. Blackstock of Highland Park on the last named committee.

The conference was then declared adjourned until 1 o'clock, at which time the three committees are expected to make reports.

Glendale Is Represented
Accredited delegates attending the conference from Glendale are J. H. Braly, Mrs. E. W. W. Hayward, Mrs. H. E. Bartlett, A. T. Cowan, Albert D. Pearce, J. G. Hunter, John McGregor, Charles Rudell, Judge Harry M. Miller, Harry E. White, R. L. McCourt, Judge F. H. Lowe and Owen C. Emery, who were chosen at a meeting of republicans of the sixty-first district in this city on December 11. Also attending from Glendale as delegates authorized under the call for the conference were C. H. Tell, W. E. Evans, C. F. Parker and C. L. Chandler.

W. E. Evans Before Conference
The name of W. E. Evans of Glendale will be presented to the conference when the matter of considering candidates is taken up this afternoon.

Mr. Evans, who is city attorney of Glendale, was recently urged by Republicans of this district to permit his name to be brought to the consideration of the conference. He consented and will be among those considered as a candidate for congress.

BOLD HOLDUP
JOHN W. KIMBLE IS STRUCK
ON HEAD; MONEY, WATCH
AND AUTO STOLEN

Two men, one dressed in an army officer's uniform and the other in a

navy uniform, shortly before 9 o'clock last night hired John W. Kimble, 109 West Chestnut street, to drive them to the rifle range.

When near there one hit Kimble on the head and the other, armed with a revolver, ordered him to hold up his hands. This he did, with the revolver leveled at him, and he was robbed of his watch and chain and about \$40 in money.

Then the two men ordered him from his car and drove away in it. Kimble walked to McNutt's ranch and, finally, made his way to Glendale, where he reported the holdup to the police department.

The car is No. 219091, Ford sedan, with two extra tires, also Johnson self-starter. The police responded immediately and scoured the city, but could find no trace of the car. Kimble was not injured seriously by the blow on the head.

Crowded Out
The Evening News is getting in a class with the Times and other Los Angeles papers. Today the advertisements of the Glendale Phonograph and Piano company and two or three other concerns had to be omitted. The copy got in so late that the ads were crowded out.

AMERICAN LEGION IS PATROLLING STREETS

(Special Service to Glendale Evening News)

INDEPENDENCE, Kansas, Dec. 17.—One hundred and fifty American Legion members today patrolled the streets of Independence and guarded the county jail to prevent a second outbreak of race riots which raged throughout the night, resulting in the death of two persons and serious injury of four others. Mayor Wabman telephoned to the governor's office at Topeka cancelling his early request for troops, believing the Legioners would maintain peace. Although crowds of white persons assembled today near the jail here, apparently there will be no move to repeat the effort of last night to lynch Noble Green, negro, suspected of the murder of a white merchant, which started the race trouble.

HARDING AND BRYAN HOLD CONFERENCE

(Special Service to Glendale Evening News)

MARION, O., Dec. 17.—Light on the plan for popular referendum on war was sought by President-elect Harding in a conference with William Jennings Bryan, former secretary of state. Advisors to the president-elect are already split over the feasibility of the suggested referendum on war. Harding was also to discuss his cabinet with Harry Daugherty, his chief political advisor, who probably will be offered the post of attorney general.

SUPPLY OF LIQUOR IS GOING VERY FAST

(Special Service to Glendale Evening News)

WASHINGTON, Dec. 17.—The end of the liquor supply of this country is in sight. Prohibition Commissioner Kramer told the house ways and means committee today that liquor stored under government supervision will last only two or three years if the rate at which it is being illegally withdrawn is continued. Providing withdrawals could be limited to "proper use" there would be enough to last fifteen or twenty years, Kramer said.

PERSONALS

V. M. Tressler of 320 West Lexington drive is on a business trip to Blythe, Palo Verde valley, California.

Mr. and Mrs. Walter E. Hunt have bought the home at 411 Fairview avenue, and will move here from their Eagle Rock home tomorrow.

Cort Chrisman, a pupil at the Magnolia street school, while playing at recess, fell from a teeter, breaking two bones in his right arm.

Mrs. F. W. Parsons of 1106 North Central avenue, who had her tonsils removed yesterday, is getting along nicely.

Mrs. Frank Evans and daughter, Mary Elizabeth, of Utica, N. Y., are the guests of Mr. and Mrs. J. J. Schrempp, 340 West Broadway.

Philip Goss, 514 East Harvard street, had his bicycle stolen from his house Wednesday night. It was an Overland bicycle with the name plate removed.

Mrs. W. H. Jones of 310 Hawthorne street returned last evening from San Diego, where she has been visiting relatives for the past two weeks.

Mrs. G. D. Roach, 459 Milford street, entertained at luncheon today Mrs. Pitt P. Hand and daughter Ruth, of Long Island, formerly residents of Glendale.

The nurses of Glendale Sanitarium are enjoying their recently completed home on Jackson street. The house is steam-heated, attractively furnished and fills a long-felt need.

Mr. and Mrs. J. F. Gibbons of St. Johnsbury, Vt., are among the recent newcomers to Glendale. They have purchased the F. P. Wall property at 1124 Viola street.

Mrs. O. S. Palmer, 1008 East Colorado street is entertaining her niece, Mrs. T. D. Miller and two sons, Alden and Joy of St. Louis, Mo. Mr. Miller will arrive next week. They expect to make their home in southern California.

Mr. and Mrs. Charles Ellsperson of Sixth street and Grand View avenue, returned on Wednesday from a two weeks' motor trip to Pasadena, bringing back with them their daughter, Mrs. Oscar L. Cowan, who will spend the Christmas holidays here.

Bringing a check for \$5 to The Evening News office this morning, to be placed on the float fund list, H. E. and Sam Wilson of the Glendale Hardwood Flooring company say they want to see Glendale well represented in the Tournament parade. It's the best kind of advertising for the city.

The choir of the First Methodist Episcopal church entertained last night in honor of Miss Isabel Isgrig, their leader, and Mrs. Harriet Randall, the organist. This was in the nature of a surprise and took place in the church parlors following regular choir rehearsal. Both were presented with gifts from the members of the choir. Refreshments were served and a social good time enjoyed.

About 10 o'clock last evening Frank P. Enzor, chauffeur for the Mackay Taxi company, came to the police office at the city hall and said he had a woman in his machine who was intoxicated. Mr. Enzor said he had picked the woman up at the St. Mark's hotel in Venice and she told him she wanted to be taken to Glendale, but upon arriving here could not tell her address, so Mr. Enzor thought best to turn her over to the police department. Upon telephoning to the St. Marks hotel the woman's husband was located and requested that she be returned to the hotel. A police officer and a nurse from the Glendale sanitarium accompanied her on the trip to Venice.

The Taj Mahal at Agra is the world's most celebrated mausoleum. Built of white marble and inlaid with precious stones, it cost \$10,000,000 and 20,000 men were occupied in the building of it.

The people of the United States are the greatest candy eaters in the world. Indeed, it is said of them that they eat more candy than all the world combined.

FINAL TRIBUTE

IMPRESSIVE SERVICE IS HELD FOR REV. DAVID DUNGAN, AT CHRISTIAN CHURCH

Solemn and impressive, but with the note of triumphant hope threading the theme, the funeral services for Reverend Dr. David Dungan held from the Christian church yesterday afternoon were attended by a large assembly of friends, some of whom had come from a long distance to pay this last mark of honor to a revered friend.

The many beautiful floral tributes testified to the esteem in which Dr. Dungan is held, as well as to the loving sympathy felt for his wife and his sons in their bereavement.

Reverend Hill M. Bell gave reminiscences of his personal association with Dr. Dungan when they both taught in Drake university, and other old friends also had part in the services.

The principal address was made by Professor B. C. Hagerman, principal of Hagerman college in Kentucky. It was a masterly address, whose theme was not that of the sadness of death's parting, but of the joy of going home after a life of good deeds.

Mrs. John Cole's beautiful solos added much to the beauty and impressiveness of the service.

The body was borne to its last resting place in beautiful Forest Lawn cemetery by old friends of Dr. Dungan's: Reverend Harry E. Wilhite, George E. Rickey, Alden Lee Hill, C. C. Root, Leslie G. Parker, and Pierce.

Mrs. Robert Hugh Hopkins, formerly Miss Harriett Wells, is here from Morenci, Arizona, for an indefinite visit with her parents, Mr. and Mrs. Richard H. Wells, 404 West Broadway, and the Dr. J. L. Flint family. Mrs. Hopkins is here for medical treatment and change of climate in the hope of benefiting her health.

Mr. and Mrs. Herbert Ferguson, the latter formerly Miss Caro Whittaker, returned last evening on the Sunset limited from a six weeks' honeymoon trip in various parts of the east. Stops were made in Kentucky, at the home of Mrs. Ferguson's mother, Danville, Illinois, Chicago and New Orleans. But, after experiencing some of the eastern climate they were quite happy to return to Glendale. Mr. and Mrs. Ferguson are staying with Mrs. Ferguson's parents, Mr. and Mrs. Geo. A. Whittaker, 518 Alexander street, until they can secure a residence elsewhere.

Information has come to the office of The Evening News about a little boy 7 years old and his twin sister. The mother of these children has to do washing to make a living for them. The little boy is very much interested in things mechanical and loves to build. He has asked his mother to get some mechanical building toys for Christmas, but she is not in a position to do so financially. Perhaps some reader would like to help make Christmas day bright for these two little children, who reside at 703 East Maple street.

The oldest man to enlist in the war against Germany was Adolph Louis Lowe, aged 77 years, of Lynn Haven, Va. He signed up as a carpenter's mate, second class, U. S. navy, at Norfolk, after having been as physically fit by a naval doctor.

The Taj Mahal at Agra is the world's most celebrated mausoleum. Built of white marble and inlaid with precious stones, it cost \$10,000,000 and 20,000 men were occupied in the building of it.

The people of the United States are the greatest candy eaters in the world. Indeed, it is said of them that they eat more candy than all the world combined.

Give your home the same protection you give other, less valuable property.

LACK SCHOOLING

MANY THOUSAND YOUNG FOLK GO WITHOUT LEARNING DUE TO LACK OF TEACHERS

Between 200,000 and 400,000 children were deprived of schooling in 1919 as a direct result of the shortage of teachers, according to estimates made by P. P. Claxton, federal commissioner of education in his annual report made public at Washington.

No relief for the situation is seen by the commissioner, who added that while from 110,000 to possibly 150,000 new teachers would be needed during 1921, "we shall have at the outside 30,000 prepared teachers to fill vacancies or a deficit of at least 80,000."

Says a modern Methodist: "Our fathers objected to taxation without representation, and we object to damnation without explanation."

CITY TRUSTEES

NUMBER OF MATTERS ARE IN CONSIDERATION AT SESSION HELD LAST NIGHT

(Continued from Page 1) this time. Mr. Collins addressed the board favoring a four-foot sidewalk. A motion of Trustee Stephenson was adopted postponing further consideration of the matter for one week at 8 o'clock p. m., with the understanding that the protest against the improvement as contemplated be upheld if the city be reimbursed for expenditures already made on this account. The following roll call: Ayes: Bartlett, Henry, Robinson, Shaw, Stephenson.

A communication was read from Gus A. Rapp and Lola G. Rapp offering to purchase a lot owned by the city in the Hackman and Lennox tract for the sum of \$500. On motion of Trustee Robinson, the offer was rejected.

An application was presented from John W. Henderson for permit to do street work by private contract, the improvement consisting of a five-foot sidewalk in front of 1241 East Harvard street. On motion of Trustee Henry, permit was granted.

Applications to Sell Milk

An application to sell milk was presented from Enoch Robbins, and, in regard to this application, the Milk Inspector reported that Mr. Robbins' dairy was in no condition to comply with the law and that he refuses to make certain improvements or have his cows tested. On motion of the application of Mr. Robbins was denied.

The demands were presented and referred to the finance committee. On motion of Trustee Stephenson, the demands were approved and warrants ordered to be issued in payment of the same.

The city manager reported that at a meeting held on December 8 with the property owners interested, a motion was unanimously adopted in favor of the formation of a municipal improvement district as outlined by report made by the city manager on December 2, to vote bonds for the purpose of constructing a main sewer and sewage disposal plant in Verdugo canyon. He recommends that Olmsted & Gillette, sanitary engineers, be authorized to prepare plans and specifications, therefore, and to submit estimates of cost thereof. On motion of Trustee Stephenson, the contract of the firm named in this communication was referred to the city attorney to report to the board as to his interpretation of the same.

The city manager reported at a meeting held December 15 to discuss with property holders, and others interested, in sewage disposal for the business district plans and ways and means of securing a sewage disposal system that would take care of the most concentrated portion of the business district. The motion was unanimously adopted that a petition be prepared immediately for the installation of a sewage disposal system in accordance with the plans recommended by the sanitary engineers, Olmsted & Gillette, for the six blocks extending north on Brand boulevard from Colorado street to Wilson avenue. The city manager recommended that these engineers be instructed to prepare plans, specifications and estimates as requested. Action deferred.

Three Additional Street Lights

The city manager reported a bid of the city for installing and maintaining of three additional street lights in the Verdugo lighting district had been accepted by the county and in connection therewith he presented contract for signatures. On motion the contract was approved and the proper city officials instructed to sign same, by the following roll call, all voting: Ayes: Bartlett, Robinson, Henry, Shaw, Stephenson.

The city manager reported that

LONG DELAYED

POSTAL CARD TAKES NEARLY TWELVE YEARS BEFORE IT REACHES ADDRESS

E. B. Van Alstine, 347 Riverdale drive, called at The Evening News office yesterday and displayed a postal card which had been addressed to a Mrs. Cole and was stamped April 1, 1909. Mr. and Mrs. Van Alstine were at that time living in Mitchell, South Dakota, and Mrs. Cole was their guest, the postal card being from Mrs. Cole's father.

The card was contained in an official envelope from the postoffice at Mitchell, South Dakota, but there was no explanation as to why it should have taken almost twelve years before being delivered.

the owners of property on the northeast corner of Colorado street and Brand boulevard have made application for a permit to locate a cesspool in the alley in the rear of the property and recommended that application be granted. On motion of the city engineer and proper plans for the construction of the cesspool referred to.

Applications to Sell Milk

An application to sell milk was presented from Enoch Robbins, and, in regard to this application, the Milk Inspector reported that Mr. Robbins' dairy was in no condition to comply with the law and that he refuses to make certain improvements or have his cows tested. On motion of the application of Mr. Robbins was denied.

The demands were presented and referred to the finance committee. On motion of Trustee Stephenson, the demands were approved and warrants ordered to be issued in payment of the same.

The city manager submitted a report in regard to road crossing over Southern Pacific tracks at Brand boulevard, calling attention to the advisability of providing for transferring the north-bound traffic from the west roadway of Brand boulevard as it approaches the city limits to the east. He requested authority to apply to the Southern Pacific company for permission to construct and maintain two temporary roadways with the understanding that the expense be borne by the city of Glendale.

In this connection, the city engineer presented communication recommending the paving of the roadways referred to at a cost of \$2,300. On motion of Trustee Stephenson, the city manager was instructed to apply to the railroad company for a permit as recommended.

A communication was read from the superintendent of the Southern Pacific Railroad company proposing to give to the city of Glendale an easement on a portion of San Fernando road at Sepulveda station. On motion of Trustee Stephenson, this was referred to the city attorney.

The engineer of the public service

"We Use Nothing But PCA Feeds In Our Yards"

~ Fuller & McCallister

Fuller & McCallister of Inglewood operate one of the largest and most thoroughly equipped feed yards in Southern California. Their decision to feed PCA products exclusively came only after long investigation and tests.

There is just one reason why successful poultrymen almost invariably feed PCA products—they judge solely by results and adopt the feed that produces the most eggs and keeps their flocks in the best condition.

The Wise Poultryman Profits by the Experience of Others

PCA feeds are made by poultrymen for poultrymen. They are honestly compounded, scientifically balanced, and, judged by results, economical to feed.

department presented plans for pipe line to proposed Grand View reservoir and estimate cost of the same. On motion of Trustee Stephenson the offer of Mrs. Luna M. Scott to sell to the city certain land in block 121 Rancho Providencia and Scott tract for reservoir purposes, for the sum of \$11,255.34 was accepted. On motion of Trustee Stephenson the offer of Mrs. Luna M. Scott to

SOLVES PROBLEM

J. A. NEWTON ELECTRIC CO.
HAS MADE IT VERY EASY
FOR CHRISTMAS GIVERS

So often father, husband or brother has not the slightest idea what to get for a Christmas present for mother, wife, or sister. He thinks and thinks—but cannot discover what she really wants.

He waits till the last minute, hoping she'll give him a clue—but she doesn't. Then he rushes out to the crowded, confusing shops, looks at first one thing and then another, gets mad because he can't get waited on "right away quick," bumps into some well-meaning but misguided clerk, and hurriedly buys something which he knows in his heart is not just the right thing, but which he hopes will please because it cost a lot of money. Anyway, he's glad to get out of the blamed crowds and the noise, and tries to make himself believe he's satisfied with the gift he has bought, though he knows in his heart he isn't.

Now, the J. A. Newton Electric company, 631 East Broadway, has the most satisfying solution ever for the man's Christmas gift problem. There's no woman, it's safe to say, who doesn't want something in the way of electrical appliances in the home. Her husband, father or brother may not know what it is she wants, but he doesn't need to; he can give her just exactly what she wants without knowing what it is.

Here's how: the Newton Electric company have the neatest, most Christmas-y merchandise orders, that meet the man's gift problem exactly. You fill 'em out like a check, deposit with the Newton company the amount you wish to spend on the gift, and on Christmas morning you present this electrical merchandise order to mother, wife or sister.

This order is very giftie-looking, printed in red and green, the Christmas colors, with a border decoration of holly. The lady who receives it can go to the Newton Electric company and get just what she wants. Maybe it's an electric percolator she's been secretly wishing for; maybe she wants a toaster, or a grill, or an electric warming pad; or perhaps she'll use this electric merchandise order for the electric washer which she should have had long ago, and manage to make the monthly payments from the saving on the laundry bills; or perhaps she's been longing for a vacuum sweeper that will clean up all the dust and germs in a whole-some way, and save her strength besides.

At any rate, whatever the amount the masculine gift-buyer chooses to spend, he may be sure there's something in the electrical line that every woman wants—from a curling iron to a washer or an ironing machine.

If Your Grocer Hasn't Pronto, write
PACIFIC CHEMICAL CO.

PROMINENT SPEAKERS

Public schools of Glendale will be closed next week and the teachers will attend the county institute to be held in Los Angeles. It is announced that Mark Keppel, county superintendent of schools, and Mrs. Susan M. Dorsey, superintendent of city schools, have secured a dozen or more speakers of national reputation for the institute addresses. Included in these are Dr. C. E. Chadsey, dean of the department of education of the University of Illinois; William McAndrew, associate superintendent of the New York City schools; Dr. Aurelio Reinhardt, president of Mills College; Dr. Henry Suzzallo, president of the University of Washington; Frank Alvah Parsons, president of New York School of Fine and Applied Art; Will C. Wood, state superintendent of public instruction, and many others.

Program for County Institute

Following is the program for the county institute, not including the music sections:

Monday, December 20, 9:30 a.m. Bible Institute Auditorium, Mark Keppel, superintendent of county schools, presiding—Address, William McAndrew, "Success in Schools;" address, Harry Wagner, editor Western Journal of Education, "A Brighter Social Future for the Teacher."

Afternoon session—Address, Dr. C. E. Chadsey, "Some Educational Problems;" address, W. J. Cagney, superintendent San Benito county schools, "America First."

Tuesday, December 21, 9:30 a.m. Bible Institute Auditorium, A. C. Wheat, assistant superintendent of county schools, presiding—Address, A. E. Winship, editor New England Journal of Education, "New Democracy in Education;" address, Arthur H. Chamberlain, editor Sierra Educational News, "Salesmanship."

Afternoon session—County teachers will meet with city teachers at section meetings.

Wednesday, December 22, 9:30 a.m. Bible Institute Auditorium, Hubert S. Upjohn, assistant superintendent of county schools, presiding—Address, Frank Alvah Parsons, "What to Teach in Public School Art;" address, Mark Keppel, county superintendent of schools, "The Noblest Ideals of a Great Profession."

Afternoon sessions—County teachers will attend section meetings.

Including the general sessions, the sessions of the California Teachers' Association and sectional conferences, more than sixty different meetings will be held during the week.

COST ESTIMATE

W. B. KELLEY, CHAIRMAN FOR
FINANCE COMMITTEE FOR
FLOAT, MAKES REPORT

W. B. Kelly, chairman of the finance committee of the float committee, announces that the display for the Pasadena tournament will cost from \$1,000 to \$1,200 to properly portray the great growth of Glendale in the way of a beautiful floral float, the design of which will be synonymous with the 393 per cent gain in population in the past ten years and to maintain a greater growth for the next ten years to come.

"The float in itself must be worthy of this community and something that will advertise us before the entire country," said Mr. Kelley.

"The interest in this representation by the citizens of Glendale and surrounding territory is a harbinger of co-operative action and harmonization of all factions to unite into one great upbuilding organization of progressive action, which will be of untold benefit to our beautiful city."

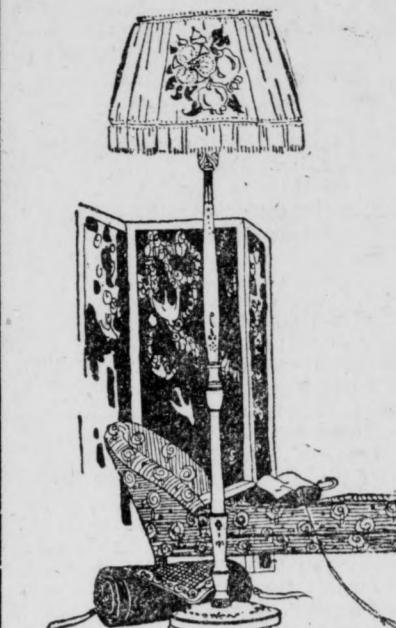

The United States Shipping Board sold vessels aggregating \$24,676,040 between August 1 and November 1. Fifty-nine ships were sold.

W. E. HEWITT TELLS OF INTERESTING EXPERIENCES ON TRIP TO MEXICO

Business Conditions Throughout Country Seem to Depend Wholly Upon United States

In an interview with an Evening News reporter, W. E. Hewitt of the Glendale Laundry related some very interesting things observed by him on his recent trip to Mexico. Mr. Hewitt was a member of the party which left Nogales and which was composed of members of the Nogales Chamber of Commerce and friends. Nearly all members of the party were personal friends of President Obregon. Elaborate preparations had been made by the president, civic organizations and citizens of Mexico City for the entertainment of the "Home Folks Special," as the train was called.

"Nogales is right on the border, part of it being in the United States and part in Mexico," said Mr. Hewitt. "It is the largest commercial town on the border. Farmers and cattle raisers from Mexico all do their banking there.

"The Nogales Chamber of Commerce has played a very important part in the relations between the United States and Mexico. It was through the efforts of this civic body that Obregon and Villa were brought together. The 'Home Folks Special' was given a large send off at Nogales, and at Juarez, across the border from El Paso, Tex., the party was met by a large band and the Chamber of Commerce. They were tendered a dinner and reception at this and a number of other places enroute. Many of the depots were in ruins, having been wrecked some time ago by revolutionists.

Once Very Important City

"One of the points of interest visited was the city of Zacatecas, south of Torreon. This city is at an elevation of 8000 feet. More than half of Zacatecas has been deserted. At one time this was a very important mining city of about 70,000 people. Jitneys there charge \$1.50 for a trip, no matter how short a ride.

"One of the features noticed by the Americans were the large haciendas, some of which even have their own railroads. Wooden fences are a minus quantity, all the fences being of stone.

"From El Paso to Mexico is a journey of 1231 miles. One of the first things that attracts one's attention upon alighting from the train at Mexico City is the manner in which baggage is carried. Trunks and all kinds of baggage are carried on the backs of men called cagadores. There are no-American hotels here and the members of the party spent the nights in the train sleepers. Thronghs of soldiers and policemen are on the streets.

"The members of the party visited the prison in Mexico City and found everything very clean and the prisoners apparently receiving fine treatment.

Car System Quite Unique

"The street car system there is quite unique. Each car has three attendants, the motorman, conductor and collector. The conductor collects the fares and gives each passenger a ticket, and the collector just collects these tickets.

"The streets and lawns are watered with sprinkling cans, instead of with wagons or hose. The paving of many of the streets is badly in need of repairs, work on which will soon be under way. Many of the streets are very narrow and in the center of these are spread large pieces of oil cloth on which are displayed dry goods, fruits, vegetables and all kinds of wares. All of the produce is brought into the city on boats through the canals, instead of by wagon.

"Mexico City is nineteen degrees north of the equator. Its climate is very much similar to that of Los Angeles, with the exception that they have no fogs. There are a large number of beautiful parks. The dark green foliage of the plants and shrubs is indeed very beautiful. This is probably due to the soil, which is of volcanic origin.

Many Points of Interest

"One of the very delightful entertainments planned for the visitors was by President Obregon at Chapultepec Castle, which is the military training school, as well as the president's residence.

"Another interesting place visited was the National theatre, construction of which was started some ten years ago and which is not yet finished. The shows in Mexico City begin at 9:45 and continue until about 1:30 or 2 o'clock in the morning. If the performer pleases the audience they shower him or her with bouquets. But, if, on the other hand, they are displeased they hiss, and the performer is forced to leave the stage immediately.

"In Mexico City are many beautiful churches and cathedrals. Every Sunday morning after church all the people turn out to the parks, where band concerts are held. They are in their native costumes, which are very picturesque, and come on their fine horses and in automobiles.

"At 3 o'clock every Sunday afternoon the bull fight takes place. There are six bulls to a performance. The audience is seated in a large hippodrome built of steel and concrete, and which has a seating capacity of about 35,000 people. About five minutes to 3, the master of ceremon-

ies arrives and notifies the judges that everything is ready.

Scene Is Very Impressive

"At 3 o'clock the president comes in and the national air is played. This is indeed very impressive. The bugles are then sounded and the bull pen is opened. At intervals three sets of long steel bars are thrust into the back of the bull. The actual killing is done by the matador. His entrance into the ring is amid the most tremendous plaudits. He drives a sword full length into the neck of the bull, between the shoulder blades, piercing the heart or the lungs. Gaily decorated horses are then brought in to drag the body of the bull away. Just before this is done a patch of hair is cut from the forehead of the bull and is tossed into the hippodrome. The person catching this is entitled to the meat of the bull or its equivalent in money.

"Mexican money is worth about one-half as much as ours, yet the prices of all foodstuffs and materials compares with that of the United States. In other words, it costs twice as much to live.

"Outwardly conditions seemed to be about the same as in any large city in this country. Everyone seemed to think that things would be running smoothly under the new administration.

Depend Upon the United States

"Business conditions throughout the country seemed to depend solely on the United States. The whole country is badly in need of money. They have no banks and are looking to the United States to extend credit to them. All their crops are tied up in the warehouses. Their biggest source of revenue is from the oil fields. Oil men are assessed about a dollar a barrel for all oil produced.

"Liquor houses and saloons were open, but no drunks are seen on the streets.

"The people of Mexico are divided into two distinct classes, the peons and the upper class. Instead of trying to uplift the peons the upper classes seem to try to keep them down. They have not been educated to anything better and seem quite contented. If these people had the opportunity of learning modern methods from the outside world and were allowed to make use of this education a great change would be seen. What seems to be most needed is a practical school system. The newspapers in Mexico print very little, if any, news of the outside world

Let Flowers Carry a Message of Cheer to Those who need Cheer on Christmas

Flowers reflect the true Christmas spirit. They are the just-right gift, neither too much nor too little.

The earlier we receive your Christmas order the better attention we can give to it.

A Potted Fern or a Flowering Cyclamen

Sent to a friend will be appreciated and will show a nice discrimination in the selection of a gift on your part. The addition of a pretty jardiniere will add to the gift.

A Bouquet of Flowers

Tastefully arranged is a perfect gift. And we have a nice assortment of art bowls and vases and flower baskets both simple and elaborate in which we can arrange them for you.

FORMAL OPENING

APPEAL IS MADE

WALCOTT BEAUTY SHOP WILL GREET PUBLIC SATURDAY IN NEW QUARTERS

Although the finishing touches are yet to be added to the picturesque Roy L. Kent business building on the east side of the first block on South Brand boulevard, lessees of several of the stores have already moved in and are preparing for their formal opening on Saturday.

The Walcott Beauty shop occupies one of the store spaces in this building, and Mrs. L. Walcott, the proprietor, has been busy for some time with preparations for her Saturday opening.

Her little reception room in the front is spruce and smart, with its comfortable chairs, shining glass case where all sorts of toilet requisites are displayed and its general air of exquisite cleanliness.

The booths in the treatment room are equipped with the best and the newest; every necessary appliance for the treatment of the hair and the skin is to be found in the treatment rooms of the Walcott Beauty shop. Everything is kept in strictly sanitary condition, and the arrangement of the booths gives the necessary privacy.

Another appreciated feature of the Walcott shop is a special booth for men patrons.

Mrs. Walcott formerly operated a chain of beauty shops in Pittsburgh. She received her training in plastic surgery and also in dermatology in Paris, France; during the war she served in Camp Sherman as a government dermatologist and received the rank of first lieutenant.

Mrs. Walcott uses French methods entirely in her work with the face and hair. She makes all her own toilet preparations and she herself is their best advertisement, for her skin has the texture and rosy glow of youth and shows no wrinkles. Her hair, too, shows the results of good care.

Her toilet preparations bear the trade name Cliff Laray—formed by combining the first syllable of the given names of her husband, herself and her son.

Mrs. Walcott has conducted a beauty shop at 106-A, East Broadway for the past year and has built up a clientele of satisfied patrons.

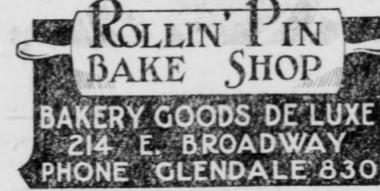

Royal Coffee Shoppe

The store space at 140 South Brand in the Roy L. Kent building is occupied by the "Royal Coffee Shoppe," whose opening will probably not take place tomorrow as scheduled, because of disappointments in the matter of lights, meter installments, etc.

Mrs. Georgia Shannon, formerly of the Mission Spa, is the proprietor of the coffee shop. Her specialty will be good coffees at reasonable prices. She will carry also cooked foods. If she is unable to hold her opening tomorrow, announcement of the event will be made in the Evening News when her arrangements are completed.

Our products are always FRESH from our OVENS, not subjected to various transfers and deliveries before reaching your table.

A regular full size 30c Angel Cake for 25c for Saturday only.

GLENDALE, (LOS ANGELES POSTOFFICE), LOS ANGELES COUNTY, CAL., FRIDAY, DECEMBER 17, 1920

91

LOCAL NURSES GAIN SUCCESS

ALL SEVENTEEN PASSED BY
STATE, IS REPORTED BY
REGISTRAR JAMME

HIGH HONORS GIVEN

MISS STELLA VORIS, ONE OF
SANITARIUM'S STUDENTS,
HIGHEST OF 331

Word has been received from
Miss Anna C. Jamme, state registrar,
that the seventeen nurses from the
Glendale sanitarium and hospital,
who took the recent examination, all
passed successfully.

One of the class, Miss Stella Voris,
received the highest average of
331 nurses who took the examination.

The Glendale sanitarium and hos-
pital training school is endeavoring
to maintain the highest standards
pertaining to the nursing profession,
and this is one more evidence of the
efficiency of their training.

The fact that all seventeen of
the nurses of the Glendale sanitarium
and hospital successfully passed the
state examination speaks well for the
training school of the local institution
and the further fact that Miss
Stella Voris of the local institution
received the highest average of the
who took the tests is causing double
congratulations to be extended to the
sanitarium.

The republic of Poland has do-
nated \$1200 to Columbia University
to amplify instruction in the lan-
guage, literature and civilization of
the Polish people. The gift was made
at the suggestion of Prince Casimir
Lubomirski, Polish minister at Wash-
ington.

FREAK REQUESTS MOTOR VEHICLE DEPARTMENT IS RECEIVING PLEA TO GIVE CERTAIN NUMBERS

The annual batch of freak requests
for automobile license numbers is
under way, and before the state
motor vehicle departments starts is-
suing the new sets of numerals on
February 1, it is liable to be fairly
swamped with these communications.

With the increase in the number
of drivers this year, there apparently
have been many additions to the
ranks of the "hunch players," for
Miss Gladys G. Carroll, secretary to
Motor Vehicle Superintendent Chas.

J. Chen, reports the requests are
increasing in numbers.

Mystery Around Two Numerals.

Around the numerals "13" and
"23," says Miss Carroll, most of the
mysteries seem to be woven. Some
of the drivers are anxious that one
of these sets of numerals be assigned
to them, while others are equally
insistent that they be not thus hand-
capped, in their automobile en-
deavors.

A civil war veteran has asked that
No. 1864 be reserved for him, and a
doctor telephoned from San Fran-
cisco, beseeching the officials to re-
issue to him the number under which
his car is at present registered. The
doctor confided that he is sick with
a fever, and he was advised that if
the reassignment would assist any in
knocking the foundation out from
under his fever the state surely
would lend its help.

It is estimated that the material
discarded in the timber industry in
the United States each year might
be made to provide 40,000 tons of
paper, 300 tons of resin and 600,000
gallons of turpentine.

A widely known justice in London
confesses that he has never seen a
motion-picture show, while a brother
jurist declares he has never used a
telephone or ridden in a subway
train.

ENLARGE FORCE AT POSTOFFICE

GREAT INCREASE IS SHOWN
IN VOLUME OF BUSINESS
FOR HOLIDAY SEASON

MORE CLERKS WORK

AVERAGE OF 1000 PACKAGES
PER DAY MAY COME NEXT
WEEK, IS BELIEVED

George Hallett, superintendent of
the Glendale postoffice, and his staff
of more than fifteen postal clerks
and carriers have already assumed
the role of Santa Claus.

The actual Christmas rush began
Monday when the average volume of
the parcel post department was in-
creased from 150 to 200 packages a
day, necessitating the addition of
three new clerks and five carriers.

Mr. Hallett believes this average will
jump to 1,000 packages a day next
month in Glendale.

The Glendale postoffice is at pres-
ent handling 100 per cent more
packages than it did last year when
the holiday rush was at its height.

This is true of the receiving depart-
ment as well as the sending depart-
ment, Superintendent Hallett said.
He declared, however, that arrange-
ments have been made to adequately
take care of all demands on the of-
fice.

Eight More Carriers and Clerks.

Service will be improved next week
by the employment of eight more car-
riers and clerks and the addition of
three more delivery wagons. One
wagon has already been added. With
this equipment Mr. Hallett feels safe
in assuring the community that every
package received at the office

(Continued on page 12.)

TELEPHONE CONNECTIONS OF MONTH ARE EVIDENCE OF CITY'S GROWTH

One Hundred and Twenty-two Made in November As Compared With Sixty-two Year Ago

More than 120 telephone connec-
tions were made during the month
of November in Glendale by the Pa-
cific Telephone company, it was stat-
ed today to The Evening News by
Fred Deal, the manager.

In November of last year just six-
ty-two connections were made in this
city. That was a whole lot, in com-
parison with previous years, but
when compared to the number of
connections made last month it looks
small.

Sixty-two connections during No-
vember of last year, 122 connections
made during November of this year
—there's another bit of evidence of
Glendale's growth.

For the benefit of telephone sub-
scribers, who may wish to save the
list, and the public generally, The
Evening News publishes herewith the
name, address and telephone num-
ber of the connections made the past
month in Glendale:

Allen, R. F., 220 S. Jackson, Gl.
1219.

Alberge, Edward W., 433 N. Isab-
el, Gl. 2102-W.

Alston, Geo. D., 127 S. Kenwood,
Gl. 92-J.

Anderson, Mrs. Allie, 1125 E. Cali-
fornia, Gl. 872.

Anderson, Capt. Dave, 130 Colina
Drive, Gl. 2309-R-12.

Atkinson, A. M., 455 W. Wilson,
Gl. 509-J.

Babcock, C. E., 719 S. Maryland,
Gl. 848-W.

Barnuch, Emil, 406 S. Glendale, Gl.
827-W.

Bevis, Henry H., 470 Riverdale, Gl.
276-M.

Blair, W. R., 1607 Gardena, Gl.
1443-J.

Boody, Florence S., 442 W. Bur-
chett, Gl. 989-J.

(Continued on page 10.)

VETERAN LEADS VIRGINIA REEL

ROBERT TAYLOR, POPULAR IN
G. A. R. CIRCLES, PROVES
HE'S NOT BIT OLD

PROGRAM ENJOYED

SUCCESSFUL MEETING IS HELD
BY ORGANIZATION; NICE SUM
IS REPORTED CLEARED

The young people of Glendale do
not monopolize the terpsichorean
pleasures of the social occasions—
not by any means. They have their
new-fangled steps that to the older
generation appear to have neither
rhythm nor reason—but they get
no more fun out of them than these
same older people get from the dance
measures of a somewhat earlier day.

Robert Taylor, popular G. A. R.
comrade, who has won many prizes
for his graceful dancing, led the
Virginia reel, old-fashioned quadrilles
and other dance-steps at the
social given by the Daughters of
Veterans at Hurtt's hall on Wednes-
day evening, a part of the evening's
program that proved itself most
popular.

Excellent and substantial refresh-
ments were another popular feature.
Several articles recently finished by
the ladies were disposed of. Mrs. A.
J. Van Wie was the winner of the
comfort; the rug went to Miss Helen
Gould, one of the aprons to Mrs.
Queen Danner, and the other to
Mrs. Ethel Reeves, of Van Nuys.

These aprons were sent by
Daughters of Veterans in Indiana to
Mary Jane Gillette Tent, and by a
peculiar coincidence it happened
that the one which fell to Mrs.
Reeves was made by a girl whose
next door neighbor she was when
she lived in Indiana. Nearly \$40 was
cleared by the ladies at this social.

BUY NOW, SAYS REALTY EXPERT

GLENDALE IS GOOD PLACE FOR
INVESTMENT, IS STATEMENT
FROM L. A. HART

GIVES SOME REASONS

NO LET-UP IN PROGRESS OF
CITY; GREATER INCREASE
CERTAIN TO COME

"If you want a select location for
a home site in Glendale, buy NOW,"
says L. A. Hart, of the Hart Realty
company, 120 North Brand boule-
vard.

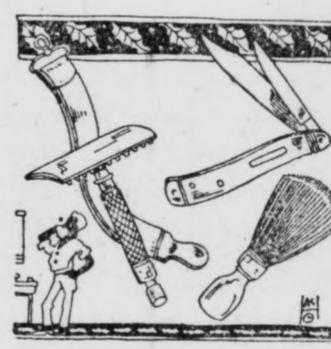

"This is advice based on my ob-
servation of Glendale's steady
growth, a growth that has continued
from day to day and from month to
month, regardless of what conditions
were in the East and other places.
There can be no let-up in the pro-
gress we are making as one of the
finest home towns in the United
States. One fact stands out beyond
any chance for argument: Glendale
is growing, and growing FAST. The
increase in population makes values;
and people here should realize that
land values in Glendale will increase,
and that this increase in their values
will more than make up for the
slack that everyone seems to expect
as a result of a predicted lowering in
costs of building material—and this
decrease in the cost of building ma-
terials, by the way, may not reach
us here for some time.

"Those of us who have been on
the ground floor for years know full
well that Glendale has offered from
the very outset inducements for the
building of permanent homes—in-
ducements that, to my way of
thinking, have stood out far beyond

A Paid Check is the Best Receipt

You often pay bills to parties whose integrity you would not appear to question by asking for a receipt. If through unintentional error you should not be given credit for money paid and should be presented with the same bill a second time you would not have proof of having paid.

When you pay by check you have a receipt without having asked for it; embarrassing no one. The endorsement would be proof of payment.

This is only one of the conveniences of keeping your memory on deposit and paying your bills by check. We will be glad to explain all these advantages to you more fully if you are in any doubt as to the advisability of opening a checking account.

Under the provision of the motor vehicle act, if an operator is convicted of driving a machine while under the influence of liquor, it is the duty of the motor vehicle department to immediately revoke his license.

But Webb rules that a different interpretation of the provisions must be made in a case where the defendant is granted probation. He says:

"It is quite apparent that in a case where the imposition of sentence is suspended and probation granted there is not only no final judgment, but no judgment at all in the sense intended by the motor vehicle act."

The London firm of Ravenscroft, the royal robe makers, has worked for each successive monarch since Queen Anne.

BIRTHS-DEATHS

NINETEEN BORN AND TOTAL OF TWENTY-ONE DIE DURING NOVEMBER, REPORT

There were two more deaths in Glendale during the month of November than there were births reported, according to figures on file with the city clerk. There were nineteen births and twenty-one deaths.

As regards the county, reports for November as compiled in the office of Charles L. Logan, county recorder, showed there were 1628 births and 1032 deaths in Los Angeles county.

Under a recent law, thirty-nine cities outside of Los Angeles and six rural communities made a report on births and deaths to the county recorder. Pasadena reported fifty-seven births and fifty-one deaths and from Long Beach the report was 107 and sixty-seven. Avalon, Catalina Island, sent in a report of two births and no deaths for the month.

DOMESTIC WORK

MANY APPLICATIONS ON FILE NOW WHERE BUT RECENTLY FEW WANTED PLACES

NEW YORK.—There's a possibility that madame, driven to desperation by the servant problem, or lack of it, may prepare to give over some of her worries. Today the employment bureau of the state industrial commission announced these interesting facts:

Applications for domestic work have increased by 600 per cent over those of two months ago.

The "general housekeeper" willing to do a bit of every kind of domestic duty is coming back, crowding out "specialists".

Wages have decreased from \$5 to as much as \$20 a month.

Miss Henrietta Rothstein, head of the woman's division of the bureau, expressed the opinion that the change is due to closing down of many industrial jobs for women which were largely dependent upon war activities. She continued:

"It is significant that many—in fact most—of our applicants either always have been employed in factories or shops or that they went into that work when enormous wages were offered.

Housework To Idleness.

"A month or two ago these women registered for industrial jobs only, declaring they would never return to the long hours, mixed duties, and less independent character of domestic service.

"But those same applicants have returned since and explained that they prefer housework to idleness. They are less particular, too. During the past two weeks I do not believe a single applicant has insisted upon going into a certain exclusive type of neighborhood."

"But more significant, Miss Rothstein declared, is the 'return of the general houseworkers.' Two months ago this jewel of great desirability apparently did not exist, she said. "Now, however, books of the bureau show dozens of applications for 'general duty,' excluding only laundry work."

Recently domestics were receiving an average of \$80 a month. Today the average wage offered is \$55 a month. And where there are special allowances such as no children and easy hours, offers of \$40 are being snapped at.

Turns Forth Paintings in Very Few Minutes

While great painters have spent weeks—perhaps months—on a simple study, a young artist is turning out delightful views of the sea and country in five minutes, says London Answers.

Impossible as this sounds, it is a fact, and the artist in question is Albert Cronkshaw of Manchester.

It was an extremely dull day, with dark clouds overhead, when a crowd of holiday makers stopped to watch a smart looking man, mounted on a platform, transforming a plain piece of canvas into a marvelous scene of beauty. Everyone forgot the dark, gloomy atmosphere as they were transported, first, to a beautiful spot in North Wales, and then to a picturesque castle. And it was all done in ten minutes.

They were pictures to be proud of, too, painted with taste and an eye to the artistic. As fast as they were painted so were they sold to the admiring audience.

There is no doubt that there will be a great demand for "rapid" artists in the near future, when we get some of those promised houses built, and undoubtedly the economical housewife will be on the lookout for good, cheap pictures to beautify the walls of her domain. She need search no further than the traveling artist, who will complete a picture in five minutes and charge less for it than almost any art dealer.

Here, too, is an opportunity for any discharged soldiers who are artistically inclined. In a neat little hand book issued by the traveling painter they will find all the businesslike methods explained clearly and simply. It is a really useful short-cut to rapid painting.

Nearly all ships carry a horse-shoe. Usually it is nailed somewhere in the stern. The horse-shoe has been a fetish with sailors ever since Nelson nailed one to the mast of the Victory.

Cooks
Glendale Arcade

IT'S THE BEST PLACE TO EAT

"Where is it? Why haven't you heard of Cooks. It's a very smart and up-to-date little confectionery and cafe just opened in the new Arcade building on Brand Blvd. just south of the new Glendale theatre. Mrs. Cook is a famous cook and she serves such dainty and delicious home-cooked lunches and dinners. The interior of the place is so harmonious and restful that it is a pleasure to eat there. They serve so many good fountain specialties, too."

"By the way, I am giving several boxes of Chocolates from Cooks for Christmas. They are put up in such attractive boxes."

UNDERTAKERS

SERVICE REGARDLESS OF PRICE
DAY OR NIGHT

LIMOUSINE AMBULANCE SERVICE

That the savages of prehistoric America knew the use of splints in the treatment of fractures is revealed by examination of the skeleton of a young woman recently found in the pueblo ruins of New Mexico. An arm, badly broken in two places, was enclosed by six carefully made splints of wood.

Pearls, like people, have a habit of growing ill, and the outward expression of their illness is a sick yellow color. This may be prevented, say experts, by continually wearing pearls next to the skin.

The average man is remarkably apt in classifying his neighbors.

HOLIDAY TRADE

PARK AVENUE PHARMACY,
OWNED BY E. E. BROWN, IS
PATRONIZED LIBERALLY

Residents of the southern part of Glendale are particularly fortunate in having such a neighborhood store as the Park Avenue Pharmacy, corner of Brand and Park avenue, which is conducted by E. E. Brown.

Mr. Brown has had years of experience in the business and knows what an up-to-date store should be like. He has put in a particularly fine stock for the holiday trade and is enjoying a good business. His advertisement in this issue calls attention to his holiday stock.

EXTRA SESSION

LEGISLATURE MAY BE ASKED
TO PROVIDE FOR MORE DISTRICTS IN STATE

There is a general feeling among state officials and others conversant with legislative business that an extra session of the next legislature may be necessary in the late summer of fall of 1921 to reapportion the congress, senate and assembly districts in California.

This belief is based on the assumption that congress will not allot the number of congressmen to each state according to a fixed district population, until after the regular session of the legislature.

California's population increased from 2,377,549 to 3,426,536 since 1910, and due to this showing, it is considered likely that her representatives in congress will insist on at least two more congressmen.

Congress in 1911 fixed the population for each congress district at 211,877, which, according to the 1920 census figures, would entitle California to five more congressmen, or sixteen in all.

About 600 French bridges of all kinds were destroyed in the war, either by Germans or the Allies.

BUY NOW, URGED

GLENDALE IS GOOD PLACE TO INVEST, SAYS L. A. HART GIVING INTERVIEW

(Continued from Page Nine) those offered by any other city in the state.

Many discerning people visiting all sections of the Southland come to the same conclusion. They tell us, "Hollywood isn't in it" with Glendale when it comes to points of excellence for a city of fine homes. There is no doubt in my mind that within a short time Glendale will have many more new homes of such beauty that Hollywood will hide its diminished head.

"There's no doubt about the splendid opportunities Glendale offers both for investments and locations for homesites," concludes this enthusiastic booster, "and I repeat that the time to buy in Glendale is NOW."

Among the sales of Glendale property made during the first half of December by the Hart Realty company are a bungalow at the southwest corner of Howard street and California avenue, bought by Mr. and Mrs. Robert, of New York, and a lot on San Rafael avenue and Gilbert street, bought by Mr. and Mrs. Sprague, of Los Angeles.

Both families intend making Glendale their permanent home; the Spragues already have plans ready for building a home.

POSTAL RUSH

LOCAL POSTOFFICE HAS BIG AMOUNT OF BUSINESS FOR HOLIDAY SEASON

(Continued from page 9) will be delivered promptly and in time for Christmas.

Address all packages plainly in order to insure the best of service, is the plea made by Superintendent Hallett. He requests that the recipient's address be written in the lower right hand corner and that the sender place his own address upon the parcel.

"Packages that are not properly addressed will be refused at the receiving window," Superintendent Hallett stated, "and as there is a waiting line at each of the three windows at all hours of the day, this precaution cannot be over-emphasized. Inexperienced help makes necessary the strictest adherence to rules."

Flood of Greeting Cards

While the big rush is on in the parcel-post department, greeting cards and other first-class matter are beginning to flood the office. The office is prepared to take care of any amount of this class of mail.

Superintendent Hallett is unable, even in the face of Glendale's remarkable growth, to account for the remarkable increase in the number of parcels handled by the office this year unless the public has at last hearkened to the warnings of postal authorities and dispatched its Christmas packages early. The theory is also advanced that more gifts are being sent this Christmas than any since the war.

Arabic Dictionary Is Still an Authority

The ponderous dictionaries of Europe, even the famous many-volumed etymological index of Larousse, which is the monumental work of all modern tongues, are more than surpassed, says the New York Sun, by the Arabic dictionaries of 500 years ago, which are still the great authority for students in that language.

The Arabic dictionary most used by scholars who are familiar with no other language is in 20 quartos volumes and weighs close to 100 pounds. There is a 50-pound, ten-volume abridgment of it, presumably for use at home. This is virtually all the Arabic dictionaries were made in the time of the Harun-al-Rashid.

The Islamic empire is credited by Moslems with two great eras. The first was that of conquest, when the only history was written with the sword. Then came centuries of Moslem domination, when the Moslems peacefully held the empires they had conquered in Asia and in the Iberian peninsula. During these art and literature flourished and the Arabic dictionary was born. In Arabia the flower of this period was in the golden time of Caliph Harun-al-Rashid.

Each of the words that have been familiar in the daily life of the nomad Arabs for centuries has an enormous number of synonyms. The lion, for example, was feared by villagers and hunted not only for sport but as a matter of necessity. Therefore in the Arabic dictionary the lion has more than a hundred different names. The camel was the sole means of transportation across the thirsty deserts and is characterized in 122 different ways.

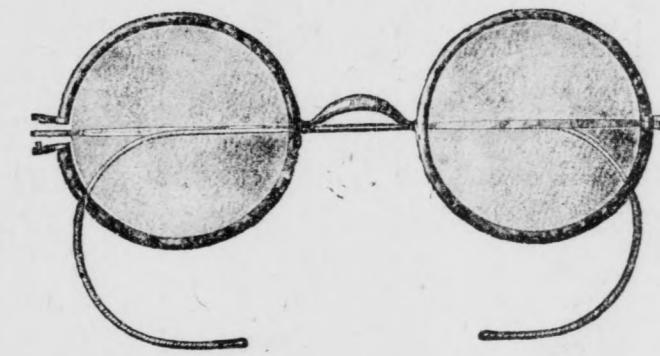

But above all, the horse and the sword were the two great stand-bys of the Arab. There are more than 200 words that convey ideas of "horse" and "sword". All other familiar words, such as tent, flock, herds, water, woman, sun and air, have long lists of synonyms that are interchangeable and in constant use. This affords some slight explanation why Arabic dictionaries are of so large size.

Arabic, so the Arabs say, was the language of the Babylonians, and it is also contended by them that it was the tongue which Abraham spoke.

The Best Gift HE CAN BRING IS A Christmas Bond for a Pair of Perfect Glasses

Come to me and secure one of these Bonds nicely printed in Christmas colors and give it to the friend or relative whom you think needs Glasses. The Bond will entitle him or her to an examination and a pair of perfect-fitting Glasses.

TAKING LEAD

TOMATOES ARE COMING INTO PROMINENCE AS PRODUCT,
VAN NUYS DISTRICT

Tomatoes have come into prominence as one of the leading products of the Van Nuys district. This vegetable has this year returned to the growers approximately \$900,000.

The crop raised in the valley during the season which has just closed will probably amount to over 5,000 tons. Of this amount 2,500 tons were used in the Golden State cannery and the Van Nuys Canning company, Van Nuys plants, and the rest was sent to the Los Angeles market and to the Burbank and San Fernando canneries. Some tomatoes were shipped to eastern markets in carload lots early in the season. The average yield to the acre was approximately ten tons, but many of the growers secured a yield of twenty tons. The average price received by the growers was \$18 a ton.

Pack Requires Over Million Cans. George D. McNeil, superintendent of the Golden State Canning company, reports that 48,500 cases of tomatoes were packed by the firm, the tomatoes requiring over 1,000,000 cans, which held between 1500 and 2000 tons of tomatoes. They will be shipped to all parts of the United States under the Pomona, Golden West, Red Star and other labels.

The total pack of the Van Nuys cannery was 13,000 cases. This company shipped a large volume of tomatoes to other plants, which brought the total amount handled by them during the season to over 1000 tons.

Where contracts were made before the season opened, the growers received \$20 a ton for their product, but owing to the slump in the market, those who were not covered by contracts only received from \$10 to \$15 a ton.

GIANT BIBLE

HOLY BOOK IS FIVE FEET IN HEIGHT AND OVER THREE FEET IN WIDTH

Information comes from London that a giant Bible has been bound by the Oxford University press for the Bible crusade of Horbury hall, Notting Hill Gate, London. Standing on end, the volume is over five feet ten inches high and nearly three feet six inches wide. The width of the back is ten inches, so that when the book is opened flat it measures about seven feet ten inches across.

It is bound in rich, red Levant morocco leather of the best quality, twelve large goat skins having been used for the binding. The front cover is surrounded by the arms of England and Scotland, inlaid in blue morocco leather, and decorated in gold; while on the back of the book are displayed the arms of the Welsh countries similarly treated.

In the center of the front cover is a panel of royal blue morocco leather, containing the royal arms, inlaid with the heraldic colors. The book contains 175 sheets of stout paper boards attached by means of linen hinges to strips of similar material, which forms the back of the book. It is sewn with twine, in the old-fashioned way, round six stout hempen ropes (each rope containing seventy strands of hemp) much thicker than the ordinary clothesline, and four of these ropes are laced into mill-boards one-half inch thick, which form the foundations for the leather covering.

In order to facilitate the handling of the book during the various processes of binding it was found necessary to erect a wooden staging, from the cross beam of which depended an iron chain and pulley block, and by this means the position of the book was altered from time to time.

Without the aid of the block and pulley the assistance of six men would have been necessary to manipulate the volume. This is, of course, all very interesting, but what religious purpose in a "Bible crusade" is served by this monstrosity?

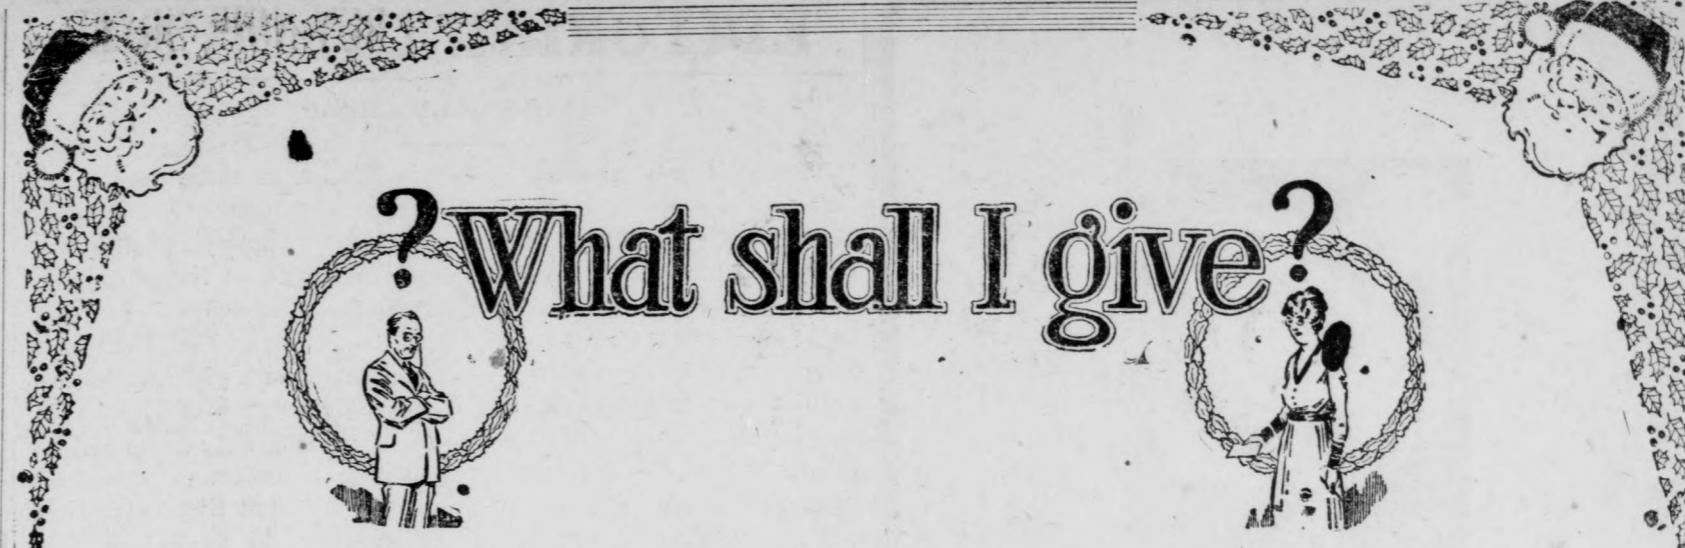

Many Dependent Boys Proving Great Problem

CHICAGO—The most important problem that confronts Chicago and other large cities of the country today is the plight of 30,000 boys dependent upon themselves for their living and who are now jobless according to Jack Robbins, head of the Boys' Brotherhood Republic.

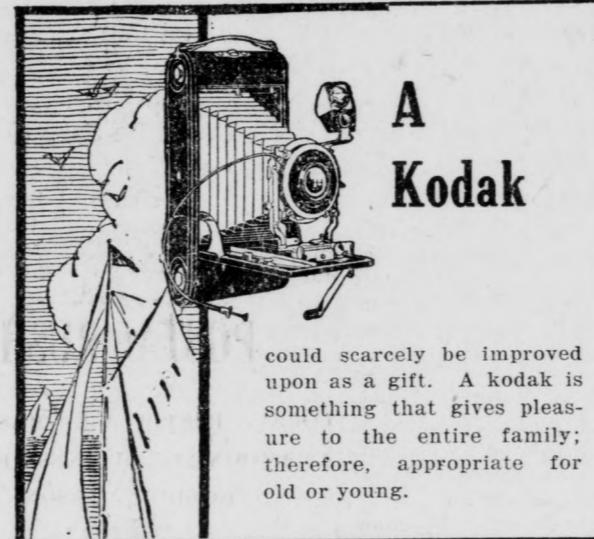

"Within the last two months more than 30,000 boys have been laid off and men for greater capacity for work put in their places at the same wages," Mr. Robbins declared. "All these boys began to work during the war period, receiving from \$18 to \$25 a week and learned to live accordingly. Now they must take jobs paying only \$10 to \$12 a week or go without pay.

These boys range from 14 to 19 years of age and they cannot help feeling resentful about having their pay cut practically in half while they continue to do the same work. The situation must be handled before serious harm is done. If allowed to develop another month it will assume a character truly vicious and will have passed from the corrective to the punitive stage."

Geese lay the best eggs from the point of view of nourishment. Then come ducks and guinea fowl. Hens are fourth on the list, with turkeys and plovers following.

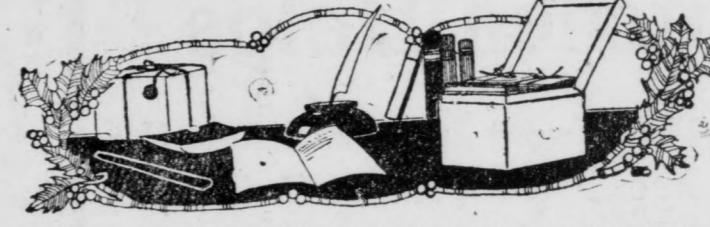

As Christmas draws nearer and nearer, the question of what to give grows more and more insistent. We don't presume to tell you here what you shall buy. We only make suggestions that may help you in the task of making appropriate selections for those you wish to remember and still keep within the limits of your Christmas allowance.

EDITORIAL COMMENT

MAKING GOLD CHEAP

There are not so many people in Nevada as there used to be, the latest census figures reveal, but recent developments may vastly increase the contribution of that state to the country's wealth notwithstanding. A few days ago more than 2000 of Nevada's most prominent people, headed by the governor, headed out into the desert to watch a gold miner. What would one of the '49ers have thought if he had got such a reception when with pick, shovel and washing pan he prepared to develop the resources of Nevada by standing knee-deep in the icy waters of a mountain stream all day long? These pioneers operated amid the solitudes, engaged in a great gamble with fortune and frequently lost, but they opened the way for the astonishing mining developments which take gold mining out of the realm of the speculative and place it upon a basis of regular day to day output almost as dependable as that of a factory.

For the gold digger so many Nevada citizens went out to see was an enormous electric dredge which scoops up the desert earth in gigantic buckets, each holding nine cubic feet, and passes it over a series of revolving sieves at the rate of twenty bucketfuls per minute. Nuggets and dust come out in the wash with the prosaic certainty of a steam thresher. It is said that the company which thus begins operations will sift 700 acres in the golden valley of the Comstock district.

In the early days when good old Hernando De Soto came to Florida for his health he was taken in by a yarn of the natives about a place up country where gold was said to be as cheap as iron. De Soto tramped many a weary mile and died broken-hearted. If he could have been with the motor party out in the Nevada desert doubtless he would have said, "My dream is about to come true. The genius of the race which has conquered the wilderness to which I succumbed, will locate Eldorado out here on the alkali."

And maybe he would be right.

"CLEAN-UPS" OF CRIMINALS

Law-abiding citizens of every community may be counted on to give their approval to the efforts of law-enforcement officials to break up organized crime and to bring to punishment as many persons as possible among those who are engaged in violations of the laws. But despite the desire to obtain the arrest and punishment of crooks of any and all forms of activity, there is more or less doubt that periodical "clean-ups" in the larger cities do very much more than scatter offenders temporarily into other communities, where they await the time when they may safely return to their old haunts.

Crusades of this character are being waged in Chicago, Cleveland, Pittsburgh and a number of other large cities, with the result that numerous arrests have been made, comparatively few of which have been of persons who are foremost in planning crime or most dangerous in carrying it out. It is usually found that the big crooks have friends who tip them off regarding the proposed action of the police department, and it is claimed that this was done in Cleveland, and some of the "big game" was enabled to escape the hunters even before the hunt was inaugurated.

Some persons may wonder why it is that these crusades against criminals are usually accompanied by a shake-up of the police departments of the various cities, the conclusion of many being that the police have not been as vigilant as they should in the enforcement of the laws from day to day. Why should conditions in any city be allowed to reach the point where a radical clean-up is necessary? There must be something wrong with a system of law-enforcement—or lack of it—that enables criminals to carry on their work until they become so bold that public opinion forces the officials to take drastic action in an effort to provide relief.

"Little change in women's suits." Perhaps they spent it all in buying them.

Reclamation Projects to Mean More Wealth

Reclamation improvements in California, Arizona and other parts of the west resulted in the production of more wealth in 1919 than the cost of construction of these improvements. This is the substance of a report made by Arthur P. Davis, mation service.

The net cost of construction of all reclamation projects, says Director Davis, was \$125,000,000. The crops produced under these projects were valued at \$150,000,000 for the year 1919.

The value of crops produced by irrigation is shown to be approximately twice as much as those from non-irrigated lands in the humid districts.

"The character of civilization resulting from close association with irrigated agriculture has a tendency to produce a higher order of citizenship," says the director. "This is due to the factors of closer settlement, more intensive cultivation and a higher product under irrigation, which tends to encourage rural operation in other respects."

Striking examples of large crop values under irrigation conditions are cited. The director shows that the Salt River project in Arizona produced a 1919 crop value of \$126 per acre, an amount that is virtually twice as much per acre as the government must collect from the water users to pay for the cost of the project. The water users have twenty years in which to pay.

Other projects show as well or better. The Yuma project, in Arizona and California, yielded a crop worth \$314 per acre; the Sunnyslope unit of the Yakima project in Washington went to \$167 per acre; the Tieton unit of the Yakima project went to \$154; and the Okanogan project in Washington yielded a 1919 crop valued at \$367 per acre.

The director foresees a tremendous development of reclamation work under the government direction, the completion and success of every unit inciting the demand for more development.

A new Belgian law prohibits the manufacture, sale or keeping in stock of matches containing phosphorus.

BACK TO HEALTH

If you are suffering, try winning back your health the way you lost it, by a gradual process of change induced by natural and right living.

Try the restful, optimistic environment of the Glendale Sanitarium and Hospital where the keynote is cheer and service.

MAP IN MIND

OBTAINS HERD

JUST PICK ANY COUNTY AND SIXTY-SEVEN OF PURE BRED HOLSTEINS ARE OBTAINED BY C. W. ANDERSON

KANSAS CITY—There's a man in town who knows the rivers, counties and crops of the whole United States as well as any Kansas Citian knows how to find his way to Convention hall.

His name is A. V. Swift; residence, Baker, Ore.; business, farming and attending conventions of the Farmers' Union, which latter industry brought him to Kansas City.

Geography is his hobby—geography coupled with an amazing bureau of crop information. Mr. Smith is a tall man, with a slightly bulging forehead and bald. Along with places goes an amazing mass of catalogued information on crops.

Knows About All Counties

He can tell you the county seat of Hancock county, Maine, and in the same breath inform you Orange county, Fla., raised only 116,000 crates of melons last year. He'll tell you about Clearwater county, Ida., growing a bumper potato crop last year, and declare Sedgewick county, Kansas, is getting along fairly well with its kafir and maize.

Two of the late stayers were talking to Mr. Swift. Two others joined the group.

"Meet Mr. Grimes of New London, Conn.," one man said in introducing the man who joined the group.

"New London," mused Mr. Swift. "That's in New London county. Only eight counties in your state. Mr. Grimes. Your town is on the Thames river and opens out on Long Island sound, doesn't it?"

"It sure does," Grimes replied. "Ever been there?"

"Stopped there a few hours on my way to Boston a few years ago," Mr. Swift replied.

"This is Mr. Frank of Oshkosh, Wis.," was the next introduction.

"Oshkosh is in Winnebago county, isn't it?" asked Mr. Swift. "It would be a rectangular county if it wasn't for Lake Winnebago cutting it and Calumet county." And so it goes. The delegates see that plenty of persons are introduced.

How does he do it?

"I just memorized the map of the United States," he says, in a quiet way. "It's not from travel, although I've visited all except fifty-six counties in the United States. As soon as someone mentions a county the diagram of it pops into my mind. I know whether it's rectangular or 'L'-shaped' or whatever shape it is, and the remainder comes easy. Simply a case of having a hobby of memory work."

Trapped Only Once Here

He was trapped for the first time in the convention one Wednesday night. He was giving a demonstra-

SIXTY-SEVEN OF PURE BRED HOLSTEINS ARE OBTAINED BY C. W. ANDERSON

Charles Anderson, a city trustee of Burbank, returned recently from an eastern trip during which he purchased a dairy herd to replace the one he disposed of some time ago at auction.

The new herd is composed of sixty-seven individuals, all pure bred Holsteins, picked from various herds all over the state of Wisconsin and a few at Pueblo, Colo. Mr. Anderson made the selection carefully, and seven was the largest number bought from any one herd.

Shipment to Burbank will be made in three express cars at a cost of \$1300 per car. Mr. Anderson is still the owner of Edgemont farm in the Burbank city limits, and will place his new herd there upon their arrival.

WOMEN ARE GRANTED VOTE.

Under a new law the women of Jamaica, British West Indies, are to have a vote in the elections for the parochial boards and the legislature. Every woman is entitled to vote if she is 25 years of age or more, can read and write and is of British nationality, but she must have also certain salary or property qualifications. The salary designated is £5 per annum or she must pay £10 in rent or £2 rates on house, lands or personal property.

NOT REALLY DEMORALIZING.

Eve was reputedly barefoot and Nausica played ball all the better because she went unsoled. Helen of Troy at the most wore sandals, and the sandal is the compromise between the shoeless and the shod. It is easier to make sandals than to make boots. In Ireland and Scotland the children have run barefoot for many a day, and the wit of one and the enterprise of the other show that there is nothing really demoralizing in going without shoes and stockings.

A new farm lighting plant may be operated by a portable instead of the customary stationary engine.

tion and submitting to a rapid fire quiz by delegates.

"What's the county seat of Haskell county, Kansas?" one fired at him.

"Santa Fe," Swift replied instantly.

"Wrong," smiled his questioner.

Swift looked worried.

"When did they change it?" he asked.

"November 2," he was informed.

"I'll not forget it," he assured his listeners.

And then he bounded Haskell county to prove he knew the territory.

The Christmas Store

Considering the great number of things this store is featuring as appropriate for Christmas gifts, you will say it may well be called the Christmas store. It is easy to select gifts here because we have so many things that are useful and practical and are instantly recognized as suitable gifts.

SECURE MEDALS

TWO SAN FERNANDO VALLEY CATTLEMEN HONORED BY COUNTY BUREAU

At the recent meeting of the Los Angeles county farm bureau held at the Anita Baldwin ranch near Arcadia, two Burbank dairymen, C. L. White and V. Martinussen, representing the San Fernando valley, received medals.

The awards were made for high producing cows and the records were kept by the cow testing department of the farm bureau. Mr. White carried off five prizes, three firsts and two seconds. He stood highest for cattlemen having sixty or more cows.

TANK GIVEN VASSAR COLLEGE

A French tank, said to be the largest war relic in this country, has been presented to Vassar College by the French government, in recognition of the services rendered France by the Vassar unit during the war.

The tank is a baby tank, weighing 42,000 pounds, and has a speed of fifteen miles per hour. It is a 75-millimeter French gun, and its capacity was sixteen men. It went through more battles than any other tank in the French army, and took part in the entire battle of Chateau Thierry. Two direct hits from German artillerymen finally put it out of commission at the same time killing six tank corps men.

The grasshopper does not use the throat in producing its shrill note. It is produced by the wings. One of the ribs of each wing resembles a file, while another part of the wing is drawn tight like a drum. When the grasshopper draws one file over the other it causes the drum to vibrate.

The beautiful palm tree has a real "kick" to it. More than 90 per cent of the alcohol and alcoholic drinks made in the Philippines are derived from palm tree juices.

Beginning to play chess when she was twelve years of age, Mrs. A. B. Stevenson now holds the proud position of woman chess champion of Great Britain.

Wasp's nests are said to take fire very often because of chemical action of the wax on the material of the nest itself. This might explain some mysterious fires.

Gen. Scott, Whig standard bearer in 1852, was the first to disregard the tradition that a candidate for the Presidency should not deliver speeches in his own behalf.
